ccfaef5 Mi primer commit
Alumno@DESKTOP-B8E4IF5 MINGW64 ~/Desktop/EjGIT (main)
$ git checkout ccfaef5
Note: switching to 'ccfaef5'.
You are in 'detached HEAD' state. You can look around, make experi
mental
changes and commit them, and you can discard any commits you make
in this
state without impacting any branches by switching back to a branch
.
If you want to create a new branch to retain commits you create, y
ou may
do so (now or later) by using -c with the switch command. Example:
git switch -c <new-branch-name>
Or undo this operation with:
git switch -
Turn off this advice by setting config variable advice.detachedHea
d to false
HEAD is now at ccfaef5 Mi primer commit
